Rick Mitchell	21-Aug	Yes	<p>> Voting in elections shall be of secret ballot of Members. Balloting shall be open for no less than ten (10) and no more than (20) days. Voting closes at 11:59pm US-Pacific Time on the election voting end date.</p> <p>Since the Leaders policy hasn't been finalized I think it's worth pointing out that while this seems good for the board elections it might not work for chapters (or projects). Unless the foundation intends to make a platform available for election use.</p>			Accepted. No less than 14
Rick Mitchell	21-Aug	Yes	<p>> Ballots will be destroyed following the certification of the election.</p> <p>Assuming an online platform is used for voting, how is this going to be enforced/ensured. While I appreciate the attempt to promote privacy here this seems like: 1) Something you can't really ensure. 2) If it is something that can be ensured, it's a task some board or staff member has to chase/follow-up on for very little gain/benefit.</p>			Accepted. Remove the destruction of ballots
